ICEC 26 - ICMC 2016

26th International Cryogenic Engineering Conference

International Cryogenic Materials Conference 2016

7th - 11th March 2016 | Manekshaw Centre, New Delhi, India

This is a biennial international conference on cryogenic engineering and cryogenic materials. The conference is being hosted jointly by the Indian Cryogenics Council (ICC) and the Inter-University Accelerator Centre (IUAC), in the historic city of New Delhi. The main objective of the conference has been to bring together researchers from R&D institutions, universities and industries to stimulate fruitful exchange and dissemination of information and ideas in the field of cryogenic engineering and materials.

Hosted by

Inter-University Accelerator Centre, New Delhi

Indian Cryogenics Council

TOPICS

- Large - Scale Refrigeration, Liquefaction
- Cryogenic Heat Transfer
- Cryocoolers
- Superconducting Magnet Technology
- Cryogenics for Fusion Devices and Accelerators
- Space Cryogenics
- Cryogenic Instrumentation and Control
- LTS and HTS Materials
- Coated Conductors and Thin Films
- Cryogenic Materials

Abstract Submission Open:
August 17, 2015

Registration Open:
September 15, 2015
